24th November 2014

Dear Prime Minister,

I refer to your letter of the 17th November 2014 about the state of the environment.

Din I-Art Helwa is pleased to note that the government will not amend the legislation to enable approval of the Strategic Plan for the Environment and Development by the Minister alone, and that this Plan will be debated and approved by Parliament as was previously the case.

Our concerns about the other issues raised in our Open Letter of 31st October, however, have not been allayed, namely, the format and content of the draft Strategic Plan, the rural policy, the policy for high-rise buildings and the call for expressions of interest for land reclamation in the absence of a marine spatial plan.

We reiterate our plea to you as Prime Minister to ensure that your legacy to Malta is remembered for the improvements which have been made to this country, and not for the further and rapid degradation of the built and rural environment.

Yours sincerely,

Simone Mizzi
